CBS DICHROIC GLASS AT SUNSHINE GLASSWORKS LTD

Coatings by Sandberg – There is a difference

The pros at CBS take great pride in creating the finest dichroic glass products available. Colors are consistent and uniform. There is little color distortion at high temperatures. All colors are made to be hot worked, whether in a kiln or flame.

Buying Dichroic Sheet Glass

Dichroic glass is produced at high temperatures in a vacuum chamber. This allows a maximum sheet size of 19 inches in diameter.

We cut the factory sheets to 4x4" squares or quarter sheets. Quarter sheets are generally 8½ x 9½" with one side curved, as shown at left. On occasion, quarter sheets may be larger (there is no extra charge for the larger sheets). Half sheets and full sheets are generally available.

Dichroic Sheet Glass Catalog Numbers

Page two is the key to the numbering system for Dichroic Sheet Glass. The first portion of the Catalog Number refers to the COE of the base glass; the second portion to the color and texture of the base glass; the third portion to the pattern or tooling applied, if any; the fourth portion gives the color of the coating applied; the fifth section shows the sheet size.

Dichroic Stock Available

Our stock listing starts on page three. Stock available will vary from multiple full sheets to just a few 4x4's, depending on supply and demand. We receive monthly shipments from CBS that will include additional colors, patterns and textures. The Stock Available Listing is updated as additional product arrives.

Since there are dozens of coatings, dozens of patterns and dozens of base glasses, the possible combinations is nearly infinite. We will keep a base inventory of the most popular styles and will bring in new and exciting combinations with each month's shipment.

Any special or promotional prices are on the Current Stock List. Note any expiration dates.

Dichroic Samples, Starter Packs and Accessory Glass

Our Stock Available List also includes a broad selection of CBS Sample Sets, Starter Assortments as well as frit, stringers, noodles and random size packages.

Special Orders

Special Orders of CBS Dichroic are always welcome. We are happy to include your special needs with our monthly shipment. Depending on the timing of your order, we are generally able to fill your special needs in 4-6 weeks. Please call or e-mail for details on price and estimated delivery.

Ordering Dichroic Sheet Glass

Order using catalog numbers shown on the Stock Available List. Add suffix -88 for quarter sheets and suffix -44 for 4x4" sheets. Add for boxing: Medium Box Fee for ½ sheets, Large Box Fee for Full Sheets. Coatings not shown are special order.

Order on line at www.SunshineGlass.com/shop

COLOR AND TEXTURE OF THE BASE GLASS	
B	Black, 3mm
BFP	Black Fipple
BG	Black Granite
BGR	Black Granite Ripple
BHR	Black Herringbone Ripple
BR	Black Radium, 3mm
BRT	Black Radium, 2mm
BT	Black Thin (no texture), 2mm
BTDD	Black Dew Drop, 2mm
BTF	Black Fibroid, 1.8mm
BTFC	Black Figure C, 2mm
BTRP	Black Ripple, 2mm
BTSX	Black Stream-X, 2mm
BTM	Black Moss, 2mm
C	Clear, 3mm
CFP	Clear Fipple
CG	Clear Granite
CGR	Clear Granite Ripple
CHR	Clear Herringbone Ripple
CRR	Clear Radium Ripple
CT	Clear Thin (no texture), 2mm
CTFC	Clear Figure C, 2mm
CTF	Clear Fibroid, 1.8mm
CTFL	Clear Florentine, 2mm
CTR	Clear Radium, 2mm
CTRP	Clear Ripple, 2mm
CTSX	Clear Stream X, 2mm
SPECIALTY GLASS	
Specialty Glass, such as Spirit, Opal Art, Fracture/Streamer or other styles will have the Specialty Glass's catalog number inserted in this spot.	
Example: D 96 43176 00 RSB would be Murano Spirit System 96 glass with Red/Silver Blue coating	
Example: D 90 2024 HC RB1 would be Bullseye red opal streaked on clear with Honey Comb pattern	
Other styles and textures of glass may be available from time to time or can be special ordered. Please inquire for availability and pricing.	
2mm is the standard thickness on all smooth black and clear smooth glass. 3mm Smooth Black or Clear are special order items.	

D 96 BT 00 MG 88	
PATTERN/TOOLING	
00	Double Zero indicates NO pattern applied. Solid color coating
AB	Aurora Borealis, diffuse clouds of color. Can be done in any coating.
BA1	Ballons 1 (1" circles) Mixture coating
BA3	Ballons 3 (3" circles) Mixture coating
BX1	Boxes 1 (1/4" squares), Mixture coating
BX2	Boxes 2 (1" squares), Mixture coating
BR	Brick Pattern (1/2 x 1/8" brick pattern), Rainbow 1 (RB1) Coating
CL	Cool Lava, Blotches of color on Rainbow 2 Coating (RB2) = PREM
CS	Cork Screw, curly patterns running through Mixture (MX) Coating
CSGR	Chris Stell Gears design
CSOR	Chris Stell Original design
CSSD	Chris Stell Sundial design
CSST	Chris Stell Strips design
CSTP	Chris Stell Timepieces design
DT1	Dot 1, 1/16" diam dots on Rainbow 1
DT2	Dot 2, 1/8" diam dots on Rainbow 1
DT3	Dot 3, 1/2" diam dots on Rainbow 1
FS	Fusion, diffuse blobs of color with curly patterns. Can be done in any coating
GEO	Geodesic
HC	Honey Comb, 1/4" cells on RB1
HL	Hot Lava, Blotches of color, RB1
M1	Marquis 1, 11/16 x 1/8 stretched hexagons on Rainbow 1
M2	Marquis 2, 7/8 x 1/4" stretched hexagons on Rainbow 1
PX	Pixie Stix, Jumbled lines on different coatings
PZ	Puzzle, tight squares with deckled edges, on Rainbow 1 or Mixture
RP	Reptilian, scaly look on Mixture (MX)
SA	Stripes A, 3/4" wide stripes.
SB	Stripes B, 1 1/2" wide stripes.
SC	Stripes C, 2" wide stripes.
SD	Stripes D, 6" wide stripes.
NOTE: Stripes are also referred to as "Rainbow Stripes". Can be done in any coating, but most popular coatings are CZ or MX	
SP	Splatter, random splatters of dichroic with areas with no coating. Can be done in any coating
SQ1	Square 1, 1/8" squares on Rainbow 1
SQ2	Square 2, 3/16" squares on RB1
SQ3	Square 3, 1/4" squares on RB1
SQ5	Square 0.5, 1/16" squares on RB1
SR	Splinter Rainbow - More intense crackling than Crinklized Dichroic. Made with Rainbow 3 coating.
TR	Target Rainbow, concentric rainbow circles
TRH	Half Target Rainbow
NOTE: TR can be done as "full" (more popular) or "half" rainbows. The half rainbow has fewer colors in larger circles. TR is usually done with CZ coating but can be done with CC and GMB coatings.	
TW	Twizzle - sizzling zig-zags across a sheet
VTR	Voltage Target Rainbow - Radiating lighting bolts with concentric gradation of coating colors
NOTE: Factory may refer to "Pattern" as "Tooling" as a "tool" is used in the coating chamber to produce the "pattern".	

D 96 BT 00 MG 88	
COATING APPLIED	
AQ	Aqua
BC	Black Cherry
BG	Blue/Gold
CAR	Candy Apple Red
CC	Cyan/Copper
CR	Cyan/Red
CX	Cyan/Dark Red
CZ	Cyan/Dark Dark Red
EG	Emerald Green
GM	Green/Magenta = PREM
GMB	Green/Magenta Blue = PREM
GP	Green/Pink = PREM
MG	Magenta/Green
MX	Mixture, pastel colors vared as they spread across the glass surface
PT	Pink/Teal
PUR	Purple
RB1	Rainbow 1, wamer, primary colors, banded across the surface.
RB2	Rainbow 2, cooler, pastel colors banded across the surface =PREM RB2 is best used with a clear cap to avoid any flaking of the dichroic coating
RB3	Rainbow 3, looks muted until fired, used for Splinter coating and for torch work = PREM
RS	Red/Silver (also called "Silver") PREM
RSB	Red/Silver Blue =PREM
SAL	Salmon
VID	Violet
YB	Yellow/Blue
YP	Yellow/Purple
YV	Yellow/Violet
NOTE: Coatings are shown in the order of "transmitted color / reflected color"	
Coatings that do not have a "I" are reflected colors. These coatings are not usually applied to Clear base glasses as the transmitted colors are generally weak.	
Coatings noted as PREM above are premium coatings	
D 96 BT 00 MG 88	
SHEET SIZE	
44	4x4" square
88	One quarter of a factory sheet, approx 9 1/2"x9 1/2" with one side curved
NOTE: A full factory sheet is billed as a quantity of FOUR -88 item numbers; a half factory sheet is billed as a quantity of TWO -88 item numbers	
Quarter sheet sizes will vary but are generally 9 1/2" on each edge.	

ORDERING DICHOIC SHEET GLASS

ORDERING INFO: Order using catalog numbers below. Add suffix -88 for quarter sheets and suffix -44 for 4x4" sheets. Half Sheets and Full sheets may be available. Please call for current stock.

* **ITEMS WITH ASTERISK (*)** are sold as Quarter Sheets only as the pattern/coating effect is lost when cut to 4x4" pieces

COATINGS NOT SHOWN ARE "SPECIAL ORDER": Non-stock sheets are sold by the full sheet. Allow 4-6 weeks delivery. Call for pricing and availability

RANDOM PIECES PACKS are a broad mix of random sizes and shapes of dichroic coated glass. Piece size varies from less than 1x1 to (in some cases) up to 2x3 or so. Coatings and styles are totally random and will vary from pack to pack.

Standard Coatings Packs contain 6 oz and generally includes standard, thin and textures.

Crinklized Coatings Packs contain 4 oz of only smooth, thin glass.

All Packs are available with clear, black or mixed base glasses.

DICHROIC STRINGERS & NOODLES

DICHROIC STRINGERS AND NOODLES are coated with a rainbow coating, giving you a range of color across each piece.

Stringer packages contain 10 pieces about 17-18" long. Stringers are about 1 mm thick

Noodles are packed four pieces, about 17" long Noodles are about 1 mm thick by 5mm wide.

DICHOIC WAVY FIRESTRIPS

Wavy Firestrips are water jet cut to 16 inches and feature the highest quality CBS Dichroic coatings .
Wavy Firestrips are cut 3mm wide, and are available in clear or black, and 90 and 96 COE. Strips are pre-fired to bring out the amazing color effects.
Packaged with five assorted strips in each tube.
Available in three styles:

Taste of Texture
Various textures of base glass

Patterns Galore
Different coating patterns

Primary Colors
Solid color coatings

ORDERING INFO: Assortments will vary from photos. We are unable to make specific color or texture selections.

DICHOIC FRIT

DICHOIC FRIT is sold in 2 oz tubes. CBS places COARSE frit in the coating chamber and applies the dichroic coating to the individual glass particles, coating much more of the surface area of each bit. This results in a dramatic dichroic effect.

CLEAR FRIT, 2 OZ TUBES			
ORDER COE 96	ORDER COE 90	COATING	EACH
DF 96 C CC	DF 90 C CC	Cyan/Copper	43.98
DF 96 C CZ	DF 90 C CZ	Cyan/Dk Dk Red	43.98

BLACK FRIT, 2 OZ TUBES			
DF 96 B RB1	DF 90 B RB1	Rainbow 1	43.98

Other coatings by Special Order. Allow 3-4 weeks lead time

DICHOIC FRIT FLAKES

DICHOIC FLAKES are made with MEDIUM frits, coated with CBS's popular Rainbow 1 coating. To ensure a bright dichroic effect, CBS loads clear frit directly into the coating chamber to coat as many surfaces of each bit as possible. Use in castings to give a bright and deep effect.

Dichroic Frit Flakes are used in this cast pendant. Clear frit and Frit Flakes are placed in the mold first. Black frit is added to fill the mold, producing a deep, dark background that shows off the bright dichroic bits.

Sold in 1 oz tubes (1 1/2" long, 1/2" diameter)

FRIT FLAKES	EACH
DFF 90 B RB1 COE 90 Black	23.98
DFF 90 C RB1 COE 90 Clear	23.98
DFF 96 B RB1 COE 96 Black	23.98

DICHOIC EXTRACT

Dichroic Extract is the dichroic coating removed from the surface of the glass. NO COE to worry about. 1/8 sheet per jar.
Apply with just a drop of water and small brush. A tiny bit goes a very long way.
Complete instructions and video are at:
<http://www.cbs-dichroic.com/dichroic-extract.asp>

EXTRACT COLOR SAMPLE PACKS	EACH
