COMPLETE GLASS LISTING WITH PRICE CODES

This is a complete listing of glass colors considered "regular stock" at Sunshine Glassworks. We maintain these colors on our racks at all times. If for some reason we are out of stock, rest assured we have the color on order with the factory. Use this as a supplement to our Catalog #41 on CD-ROM. We have noted colors that have been discontinued and colors that have been added recently.

Give us a call at 1-800-828-7159 if we can help you with your glass needs.

SPECIAL NOTE REGARDING WISSMACH LUMINESCENT GLASS

Wissmach's Luminescent coating is a type of iridized coating. Fire coated side down and the effect will intensify. Fire coated side up (no higher than 1410°F) and the coating will stay on darker colors but will fade to a beautiful sheen on lighter colors. If fired with cover glass, the effect will disappear

OCEANSIDE HAND ROLLED GLASS

UROBOROS ART GLASS is changing to OCEANSIDE HAND ROLLED

OCEANSIDE HAS "RETIRED" ALL HAND ROLLED PRODUCT AS OF OCTOBER, 2019

Important Note Regarding Uroboros Art Glass:

These are all hand mixed colors and the color mix will vary greatly from one end of the sheet to the other. In addition, colors noted as "highlights" are added to the mix in small quantities. As a result, these highlight colors may not be apparent in smaller (UPS'able) sheets.

If a particular color mix is desired, please let your Sales Person know your needs and we will do our best to find the finest sheet in our stock.
