

**GLUE CHIP GLASS**

**Jack Frost Texture Is A Hit!**

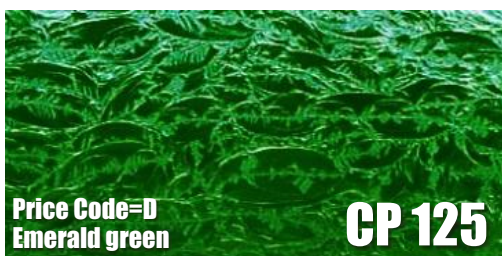

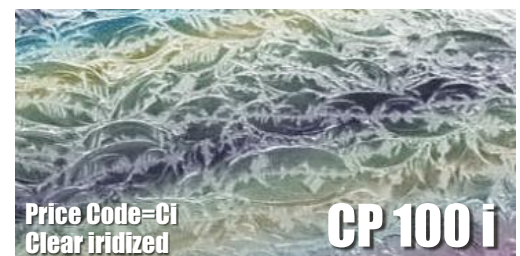

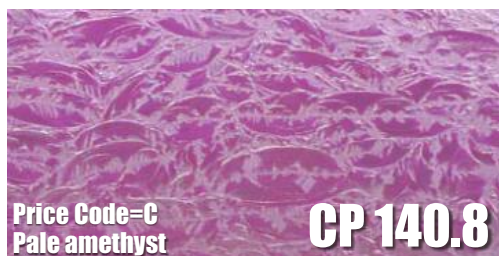

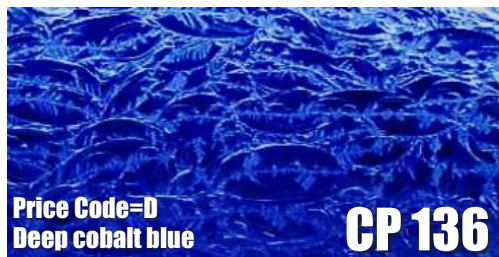

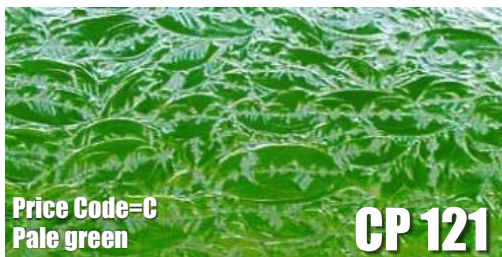

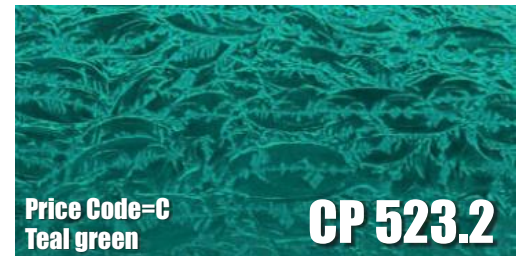

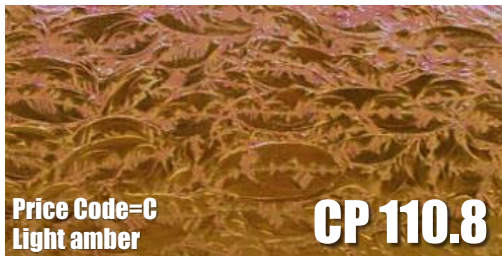

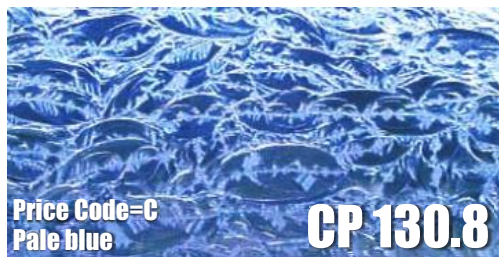

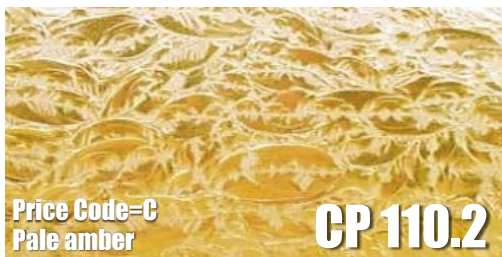

**GLUE CHIP GLASS** makes outstanding backgrounds, especially in cabinet doors. The texture is obscure but lets lots of light through. All colors are easy cutting.

**SINGLE CHIP** is made by a special process that peels chips of glass from the surface, giving the random, feathery texture. Available in clear, clear iridized and colors.

**DOUBLE CHIP** is Single chip run through the process twice, producing a brighter, less defined texture. Available in clear only.

**GLUE CHIP IN COLOR** uses Spectrum cathedral colors as a base.

**GLUE CHIP SHEET SIZES AVAILABLE:**
